TARREN Gauntlet 8078
TARREN Wristlet 8079

WHAT MAKES US DIFFERENT

Heat shield

Heat shield: Outer layer of specially treated cowhide leather combined with aramid nonwoven layers provide ultimate heat resistance with TPP exceeding 60.

Breathable membrane

Breatheable Porelle® membrane is highly flexible and creates a barrier against water, chemicals, bloodborne pathogens as well as bacteria.

Lining

Lining – Holik uses lining with higher density for easier don and doff and increased heat protection. Lining is stitched in the fingertips and never pulls out.

Anatomical 3D cut

Anatomical 3D cut for perfect fit, flexibility, dexterity and grip.
